

baby lock

desire₃

Compact with big features ...

Sewing is a handicraft that offers you a high degree of individuality and lets you discover artistic diversity through talking with other sewing enthusiasts. This is exactly what we want to encourage!

The desire3 is a combination overlock and cover stitch machine offering the typical baby lock comfort. It comes with an automatic thread delivery system that adjusts the thread tension for you. Irrespective of the fabric and thread, the ATD system determines the length of thread that is required for the chosen stitch. Thanks to this individual adaptation, the desire3 always produces perfect seams and also allows safety stitching. From the moment you get started, you will see that changing from overlocking to coverstitching is child's play.

Gerda tells us about the *desire3* from baby lock:

„Anyone who has ever sewn with the baby lock is no longer a prospective customer for other manufacturers.“

... to conjure up a smile

The baby lock brand has been appreciated for its ease of use for decades. Both beginners and advanced sewers can enjoy the machines' special technical features, such as the handy air threading system, and all of the possibilities they offer. Even if you are using the machine for the first time, you can focus on your project and start sewing immediately without tiresome threading. Everybody loves the outstanding sewing results, no matter what fabrics and threads are used.

Jet-Air Threading™ System

Developed by baby lock in 1993

Sturdy looper channels with folding auxiliary looper
